ABOUT NUTRIOUTCOMES 2027

The International Congress on Nutrition, Dietetics and Health Outcomes (NutriOutcomes 2027) is set to take place June 17-19, 2027, in the historic city of Rome, Italy, and online as a fully hybrid event. Bringing together researchers, dietitians, clinicians, public health professionals, academics, and industry innovators from around the globe, this three-day congress offers a dynamic platform where leading-edge science meets everyday practice. Against the backdrop of one of Europe's most inspiring cultural capitals, NutriOutcomes 2027 unites the international nutrition community to share discoveries, exchange ideas, and shape the future of dietetics and health.

At the heart of the congress lies a single, powerful question: how do we translate nutritional knowledge into measurable improvements in human health? The scientific program explores the full spectrum of modern nutrition and dietetics—spanning clinical and therapeutic nutrition, gut health, metabolic disorders, sports nutrition, public health policy, sustainable food systems, and the rapidly expanding fields of personalized and precision nutrition. By placing health outcomes at the center of every session, NutriOutcomes 2027 moves beyond theory to spotlight the evidence, interventions, and real-world strategies that genuinely transform lives and strengthen population well-being.

Attendees gain far more than the latest findings. The congress is designed to inspire meaningful collaboration through keynote presentations by world-renowned experts, oral and poster sessions for emerging investigators, interactive workshops, and dedicated networking opportunities. Whether you are a seasoned professor presenting a landmark study, a practicing dietitian seeking clinical insights, a doctoral student building an academic network, or a company introducing a breakthrough nutritional product, you will find a welcoming stage and an engaged audience. As a hybrid event, the congress also offers complete flexibility—delegates can join in person in Rome to experience live discussion and face-to-face connection, or participate fully online with seamless access to live-streamed sessions, on-demand recordings, and interactive Q&A from anywhere in the world.

By choosing Rome as its host city, NutriOutcomes 2027 pairs scientific excellence with unforgettable surroundings, allowing delegates to enrich a professional commitment with the city's iconic landmarks, celebrated cuisine, and timeless heritage. As nutrition and dietetics continue to shape the future of healthcare and public health, there has never been a better moment to be part of the conversation. We warmly invite you to submit your research, register early, and join a global community dedicated to advancing better nutrition and better health outcomes for all.

WHY ATTEND NUTRIOUTCOMES 2027?

- » Professional Networking
- » Knowledge Gaining
- » Skill Enhancement
- » Exposure to New Ideas
- » Partnership Possibilities
- » Access to Experts
- » Exhibit Your Work
- » Get Feedback on Ideas
- » Stay Updated
- » Personal Development
- » Encouragement and Drive
- » Cultural Exchange

ABSTRACT TOPICS:

- » Climate-Smart Agriculture, Adaptation & Resilience
- » Soil & Carbon Monitoring, Reporting and Verification (MRV)
- » Regenerative Agronomy for Field & Arable Crops
- » Conservation Agriculture, Tillage & Soil Cover
- » Soil Physics, Chemistry & Structure
- » Soil Biology, the Microbiome & Belowground Ecology
- » Soil Health Indicators & Assessment
- » Soil Organic Carbon & Carbon Sequestration
- » Soil Fertility & Nutrient Cycling
- » Plant Sciences: Health, Physiology & Root–Soil Interactions
